The California Energy Commission's Fuels and Transportation Division staff will conduct a staff workshop to provide a forum to discuss draft concepts under consideration for a solicitation on advanced freight infrastructure deployment and vehicle demonstration. This workshop will discuss funding and eligibility requirements, consider evaluation criteria, and respond to public comment and questions.

The workshop will be held on:

September 26, 2017
9:00 a.m.
CALIFORNIA ENERGY COMMISSION

First Floor, Art Rosenfeld Hearing Room
Sacramento, California 95814

(Instructions below)

Background

The goals for this workshop are to:

- Review recent Alternative and Renewable Fuel and Vehicle Technology Program (ARFVTP) investments for advanced medium- and heavy-duty (MHD) freight vehicles.
- Gather information that will inform the final solicitation.

- Seek and respond to public comments and questions.

The solicitation concepts allow for grant funding for projects that will deploy zero-emission infrastructure at California seaports, warehouses and distribution centers. Additionally, zero-emission freight vehicle deployment that utilizes proposed infrastructure investments and innovative Intelligent Transportation System projects are considered eligible under the solicitation concepts to be discussed at the workshop.
